

# Technical Specifications

## APPLICATION

Use to connect electrical circuits of underground pump rated at rated 600 volts maximum circuit voltage rating and 75°C maximum conductor thermal rating.

## CONDUCTOR

Three soft drawn bunched/ropelay copper conductors.

## INSULATION

Individual conductor is color-coded extruded with Polyvinyl Chloride (PVC) lead free. This Thermoplastic is flame retardant and resistant heat, moisture and oil.

## JACKETED

Assembled multi-conductor cable is extruded with Polyvinyl Chloride (PVC) lead free and then with black Polyethylene (PE) for final protected covering.

## DIMENSION

Size Wire MM <sup>2</sup>	NO. & NOMINAL DIA. OF WIRE	PVC insulation thickness MM	PE Jacket thickness MM	Approximate Overall Dia. MM
8	7 x 14 x 0.32	1.60	2.00	22.08
14	7 x 25 x 0.32	1.60	2.00	25.21
30	7 x 53 x 0.32	1.60	2.00	30.61
